

## NOTICE OF GREEN CORING SCHEDULE AT MONTGOMERIE LINKS GOLF CLUB

**Dear our valued Customers,**

To maintain the excellent quality of golf course, we have the Green Coring annually schedule. For your information, Green Coring is a golf course maintenance term that refers to the process through which greens (and sometimes fairways) are aerated. The process of aeration is a course maintenance technique that loosens the soil, opens up growing room for grass roots and helps air, moisture & nutrients get to the roots.

Please be informed that from 21<sup>st</sup> to 25<sup>th</sup> June & 5<sup>th</sup> to 8<sup>th</sup> July, the golf course will have some restrictions followed our Green Coring schedule in 2021. Please see below the detail schedule and all efforts will be made to keep as close to this schedule as possible. Thank you for your understanding in this matter and apologize for any inconvenience it may cause.
