HIGHLIGHTED ACTIVITIES

GOLF COURSE MAINTENANCE - A TOP PRIORITY AT *Montgomery Links*

The quality of a golf course extends far beyond its visual appeal. While lush, green fairways may catch the eye, it's the playability, consistency, and behind-the-scenes care that truly define a golfer's experience. That's why course maintenance remains a top priority at Montgomery Links.

One of the most important annual practices currently taking place is hollow tining of the green, a crucial procedure in preserving premium playing conditions. Using specialised equipment, small holes are punched into the surface of the greens.

This allows air, water, and nutrients to penetrate deep into the soil, giving the turf an opportunity to “breathe.” Far more than just a surface refresh, hollow tining helps to alleviate soil compaction and promote stronger, deeper root growth.

It is also a clear reflection of Montgomery Links' ongoing commitment to maintain the standards of the golf course, ensuring that every round lives up to the expectations of golfers.

Green Hope 2024

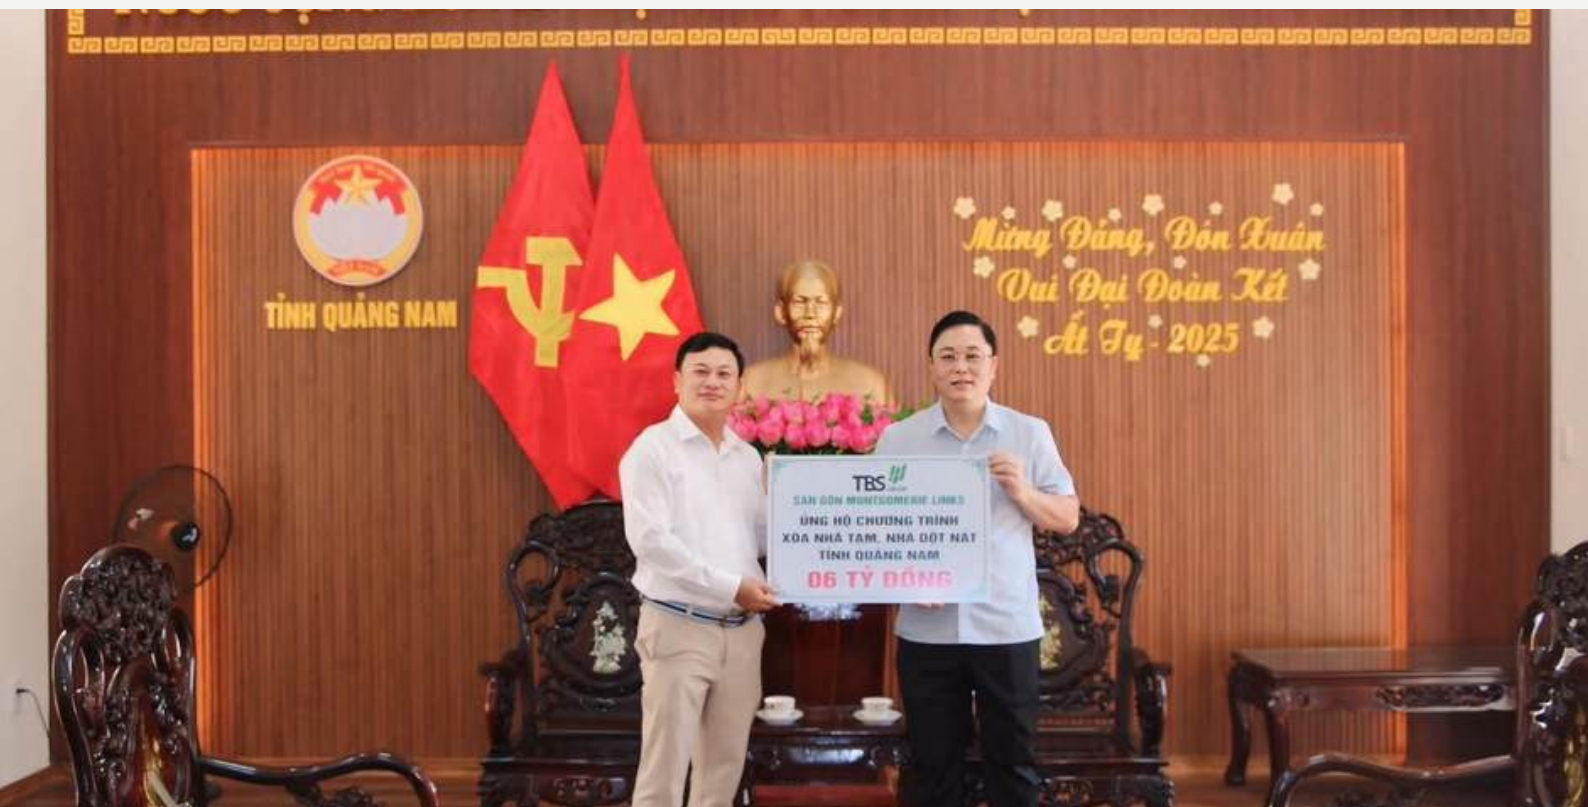

Within the 2024 Club Championships, the CSR project named "Fundraising for free swimming courses and anti-drowning skills for children in Quang Nam province" has been introduced as the **Green Hope 2024**. This project not only equips local children with essential life skills but also reflects the long-term social responsibility that Montgomerie Links is committed to upholding.

As of the end of May 2025, Green Hope 2024 has successfully completed 3 swimming courses, providing basic swimming techniques and drowning prevention knowledge to 35 students from Pham Nhu Xuong Primary School and Ho Van Bien Primary School.

The project is now entering its next phase with courses 4 and 5, welcoming new students from Le Hong Phong Primary School. The lessons take place at the Montgomerie Links swimming pool under ideal early summer weather conditions, offering a safe, confidence-building environment for children to improve their fitness and become familiar with water.

MONTGOMERIE LINKS ACCOMPANIED QUANG NAM PROVINCE'S INITIATIVE TO ELIMINATE TEMPORARY AND DILAPIDATED HOUSES

On the morning of May 14, 2025, representatives of the board of directors of Montgomerie Links Golf Club had the honour of presenting **6 billion VND** in support of Quang Nam Province's program to eliminate temporary and dilapidated houses. This contribution is part of the 25 billion VND pledged by TBS Group – the parent company of Montgomerie Links – to support the program nationwide.

This meaningful and humanitarian initiative reflects the Quang Nam province's strong determination to mobilise social resources to build safe, permanent homes for underprivileged households, policy beneficiary families, and ethnic minorities, helping them achieve more stable and improved living conditions.

Montgomerie Links would like to express sincere gratitude to the Vietnam Fatherland Front Committee of Quang Nam Province for initiating such a profound and impactful program. The Club is truly proud to play a part in the journey of building a more prosperous, caring, and united Quang Nam.
